

Usability Study

Coral Cliff Beach Resort

18
and
up

Wants to
travel or
has
before

Top Positives

- Good Picture Usage
- Booking Bar easy to find

Top Negatives

- Rooms sold out
- 10%off discount was distracting

General Findings

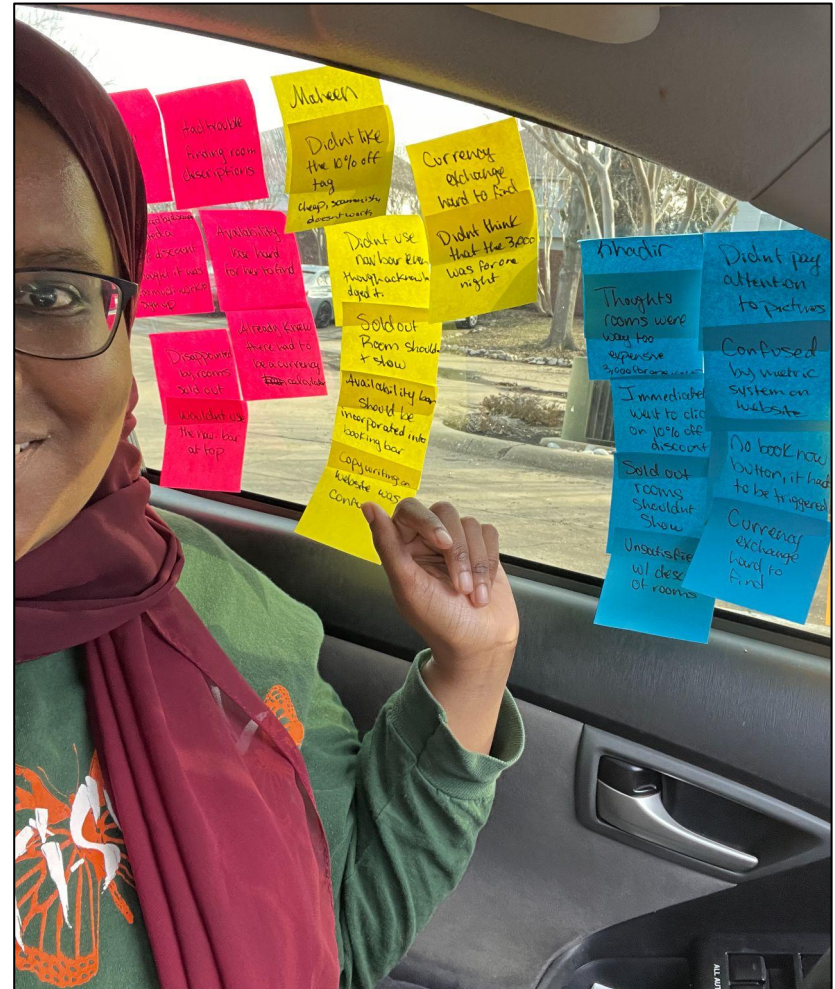

- Loved Pictures
- General layout is user friendly
- Home bar not used
- Rooms tab in home bar cuts off picture
- Discount tag not effective
- Booking bar shows sold out rooms
- Currency confusion
- Availability bar and currency exchange hard to find
- No CTA once found room

Usability Test Insights

Did a usability test with 5 people

Imani

- Felt signing up to get 10% off was too much work
- Didn't like that sold out rooms were showing up in booking
- Knew what is to be expected on a travel site

Maheen

- Thought 10% off tag looked cheap and sketchy even
- Thinks availability bar should be embedded in booking bar
- Thinks the hotel map wasn't useful and unnecessary
- Thinks currency exchange should be more noticeable
- Loved the pictures
- Liked she didn't have to go through several pages to get to booking

Khadir

- Doesn't pay attention to pictures
- Frustrated by rooms showing up when sold out
- Confused on pay due to currency display
- Pointed out inconsistent room descriptions
- Currency and availability bar not noticeable enough
- Wants to filter by amenities, not rooms

Khalid

- Only person who used navigation bar
- Got distracted easily by 10% off, pictures, and other nav bar options
- Liked pictures
- Avoided reading due to large amounts of text on home page
- Couldn't complete first prompt without help
- Thought the website should look "cooler" and more "modern"

Yusuf

- Confused by currency
- Thought 10% off cheapened the look of the website
- Home page link not working and links go to same places
- Frustrated by rooms sold out when trying to book
- Availability bar should be embedded into the booking bar
- Should be able to filter by room

Suggestions For improvement

1. Currency exchange and language on front page
2. Availability bar incorporated into booking bar
3. Home page reorganization with reduced text and fixed links
4. Move 10%off tag to when booking or redesign it

The screenshot shows a web browser window with multiple tabs. The active tab is 'Coral Cliff Beach Res...'. The address bar shows the URL: reservations.instant-bookings.com/?_ga=2.217083027.488411400.1743108213-112519414.1743108213¤cycode=THB&arrivaldate=28%2F03%2F2025...

The website header includes the Coral Cliff Beach Resort logo, a 'VIEW AVAILABILITY CHART' button, a 'FILTERS' button, and currency/language selectors for '\$ THB' and 'EN'.

The main search area contains the following information:

- Check-in/Check-out: FRI, 28 MAR 2025 - FRI, 28 MAR 2025
- Room configuration: 1 ROOM(S), 2 ADULT(S), 0 CHILD(REN)/ROOM
- Promotion code: PROMOTION CODE!
- Search button: SEARCH

A promotional banner for '+ Top Up 10% OFF' is displayed, with a 'Click' button.

The room listing for 'DELUXE BUILDING' shows a 'SOLD OUT' status. The text indicates: 'This room is in high demand'. A link 'click here' is provided for more information.

The Windows taskbar at the bottom shows the date as 3/27/2025 and the time as 3:50 PM.

Key Takeaways

- Hierarchy creates clarity
- Convenience = greater user experience
- Pictures are powerful
- Information architecture is key
- Failed attempts equals bad UX
